

RANTON

POLYTUNNELS

Closing Date for comments on new **Application**

Monday 13 March

As stated in the previous note this is a new application and unfortunately the letters of objection submitted against the previous application last year count for nothing.

All you need to do is re-date and re-submit your original letter of objection. You also need to change the Planning Application number to 17/25726/FUL.

If you can't find your original objection all it needs is a few lines saying that you object and one or more reasons why. Stafford Borough Council's Planning Dept email address for your objection is: planning@staffordbc.gov.uk.

Alternatively use the Comments section on the Planning Dept's web site. The address is: <https://www12.staffordbc.gov.uk/online-applications> and enter the planning application number, 17/25726/FUL, in the bottom box and click on search. The comments tab is the second one.

Alternatively write in to the Council quoting the above application number and, either hand deliver it or post to Stafford Borough Council, Planning Services, Civic Centre, Riverside, Stafford ST16 3AQ

At present very few objections have been submitted which could appear to show a lack of concern by residents, as opposed to the great number of submissions against the previous Application, so please get your objection in.

Many thanks.
